DESCRIPTION

SCL170A is a multi-function equipment that qualified for stair climbing and lifting. It is one of our best technical appliances. Our R&D team has developed and applied many intelligent technologies to ensure safe and convenient usage. 170kg is the capacity for both stair-climbing and lifting functions. Besides, with its automatic height-adjusting loading board, it can also be useful when stacking goods.

Application: Logistics, delivery, loading and unloading cargo to/from trucks, moving furnitures and household appliances and other industries, as well as factories, warehouses, offices, residential buildings, outdoor stairs and other places.

TECHNICAL DATA

Model: SCL170AC

Net Weight: 54.8kg

Lifting Capacity: 170kg

Maximum Height: 1025mm

Lifting Stroke: 1000mm

Lifting Times: 320-370 times

Lifting Speed: 31s/m

Climbing Capacity: 170kg

Climbing Speed: 22-36 steps/min

Battery Capacity : 52-117 Floors

Weight of Battery: 3kg

Noise: < 70dB

Protection Level: IP54

Overall Size: 1410mm*585mm*650mm

PRODUCT DETAILS

Multi-function

Stair-climbing, lifting, flat ground transportation, lift itself up/down the truck

Battery

Quick plug-in and install, large capacity

Safety Insurance Technology

Emergency stop, automatic brake system, position limited detection

Automatic Height-adjusting loading board

Useful when stacking goods

Self-lifted Up & Down

Easy to carry around and store without effort with the truck

Foldable Outrigger

Best support for different function with lay-down and foldable position

APPLICATIONS
